

UTILITIES & INDUSTRIES

SERVING THE NATURAL GAS UTILITIES SINCE 1981

Customer Appreciation Day

This year our annual Customer Appreciation day was a huge success. As a company we really look forward to holding this event every year, we enjoy taking the time to get to know our customers and thank them for all that they do.

This year for the first time ever we did a two day event. One day we took our customers golfing and then out to dinner with all of our management staff. The second day we held our open house. We also had a corn hole tournament and skeet shoot. Customers were also able to take the time to meet with our meter specialist Rich Filer and our CEO Brian Dougherty. We are already looking forward to planning next years event.

Request a Catalog

When potential customers hear the name "Utilities & Industries", they may not necessarily know who and what we are. To solve that problem we have added a new feature to our website that allows potential customers to request a catalog that includes an out line of who we are and what we have to offer as a company. The catalog is completely free and we can either email it electronically or send a hard copy in the mail.

Message from the CEO

I am excited to be putting out our first Quarterly Newsletter. So much has happened here at Utilities & Industries in the past couple months and we are busier than ever! Our business has significantly increased, in which we are looking into running a full second shift. This years customer appreciation day was very exciting. We had a great turn out and had new participants. Utilities & Industries staff enjoyed their time with all of the customers and it was a really informative event.

Also in early September we added a 2015 24' Freight liner box truck with an Air Ride trailer to our fleet. We wanted to add more reliable trucks to our fleet , to serve our customers better.

Utilities & Industries has also added many new customers to our database, which in turn we are now serving utility companies all across the United States. We hope to continue our growth in 2016 by attending more trade shows and gas conferences.

I wish everyone a happy holiday season, and I look forward to keeping you all informed in the New Year!

Pink Out 2015

Utilities & Industries had its first ever Pink Out this October. All employees were involved in this event. For every employee that wore pink, Utilities & Industries, donated \$10. We let our employees vote on who or where they wanted the money to be donated to. Together we raised \$500 for a little boy with a rare type of cancer.

Utilities & Industries hopes to make this an annual event.

New Box Truck

In early September Utilities & Industries obtained a brand new 2015 box truck! All of our trucks here have Air Ride trailers. Air Ride trailers are crucial in the delivery process due to the sensitivity of the meters.

If you are interested in saving money by using our transportation services please feel free to call us at 877.876.4099!

Custom Paint Program

Are your meters functioning to your standards, but have damage from corrosion or paint flaking? Utilities & Industries can help you with that. Not only do we offer various kinds of meter repairs and meter disposal programs, we also offer a custom paint program.

Our custom paint program is done right here in our facility. We use a heavy duty industrial paint and can have your meters looking new in no time!

If you would like more information on our Custom Paint Program please feel free to call us at 877.876.4099 or email rfilet@ut-i.com.

Chinese Auction for American Cancer Society

For the entire month of November we had a Chinese Auction for our employees. Everyone was asked to bring in a gift basket, each gift basket brought in was put on display in the employee break room. For the entire month of November employees were given the opportunity to purchase chances. On November 25th we held the drawing and picked the winners of each basket that was brought in.

For this event we let our employees vote on the non profit organization we would donate the money too. This year they chose the American Cancer Society. Utilities & Industries decided to have this event in November to kick of the Holiday season with our employees.

Benefits of Outsourcing

There are many perks when companies outsource their current meter shops and partner with Utilities & Industries. We've narrowed down the top 5 benefits of partnering with us.

- * We will drastically reduce your overhead costs.
- * Your company will benefit the environment, by allowing Utilities & Industries to dispose of any waste.
- * We own and operate our own Air Ride truck and trailers, this allows us to ensure your meters will be delivered with the best care and in a timely manner.
- * By allowing us to rebadge your meters, your company will be able to recapitalize the complete refurbishing costs if they wish to do so.
- * Utilities & Industries has a very experienced staff. Over 50% of our staff has been with us for at least ten years and understands the importance of your measurement equipment.

For more information on outsourcing your meter shops or partnering with Utilities & Industries please feel free to call us at 877.876.4099.

2016 Outlook

2015 is quickly coming to an end and we are really looking forward to the new year. We hope that in 2016 we continue our rapid growth. To help with that growth Utilities & Industries plans on attending various trade shows and gas conferences throughout the United States. We feel attending these shows will allow us to connect with our current and future customers. Utilities & Industries looks forward to seeing everyone in 2016!
